

## ***A NEW ANALYSIS FOR A NEW WORLD***

Hello Fellow Space Travelers! I have always wanted to say that, in print and, to a large number of people. Alas, I have done so. Though these words may ring of insanity, to some, its meaning is rooted TRUTH. As our earth is traveling around, our Sun, our galaxy is traveling amid other galaxies within our universe. And, the far reaches of our minds are like the far reaches of space. Though it journey's far, its distances cannot be measured by human valuations, in the way that we measure the time and distance it takes earth to orbit our Sun, which calculates to be 365 days at a total of 584 million miles.

But, does the fact that we cannot measure the distances our minds' travel each day, make our minds stationary and non-static in its reach? In Matthew 28:20 Jesus said, "Teaching them to observe all things whatsoever I have commanded you: and, low I am with you always, even unto the ends of the world" His promise provides us with clarity of understanding our Spiritual relationship with God. This phenomenon is a deep and abiding relationship of attractive forces that signifies that though we are physically apart, yet are we together. Mind travel. Mind Creation. Mind Evolution. The proposition that what is happening in this moment by Divine Right Order can be different in the very next moment. This is a TRUTH statement of space/time understanding. So, how can I know what will happen tomorrow? This is the time-honored exploration of metaphysical and spiritual teachings and practices, which reveal the initiate-ness of Faith and the assuredness of guidance by master teachers throughout the ages ~ whereby teachers appear when spiritual students are open and ready to receive the Truths that they have to offer ~ Thus the creation of Elysian Spiritual Enrichment Center and its system of **Mastery of Spiritual Metaphysic**.

So, we started out this year with the goal of ***Creating A World That Works For All***. If this, idea, were an impossibility then the works that we have accomplished over the past five months have been done in vain. But, we know that we live in Divine Mind, which is in a state of continual motion; where "...all things are coming together for the Great Good of All..." And, we believe in an Intelligence that is of Itself Perfect, Whole, and Complete. So, we have learned or are learning to "judge not according to the appearances" of things that are occurring around us as we know they are in fact also in a state of continual change and we place the wholeness of our self into "a state of righteous judgment" of Christ Consciousness where we find peace and rest in the stillness of Our Beloved.

Societies have long been established. Now it is time for us to provide ***A New Analysis for A New World***. The ways in which we are to do this will be obtained when we Turn Within and Look to that which is Changeless in our ever-changing social systems ~ our ever-changing world. In this we are so very grateful because if Life was static, we could find no hope for change within the human psyche. Yet, we can rest assured that it is with Human Understanding that we will find our spark for deep seeding change. The kind of change that we seek requires **Self-Awareness and Divine Awareness, Self-Evaluation and Divine Knowing, Self-Contemplation and Divine Peace, and Stillness and Right Actions**.

It does not take much; it only takes ALL THAT YOU AND I HAVE TO GIVE. It will not be taken from us; we must give of it freely, willingly, and with an open heart. Last month we began this process of self-evaluation and one week, in our service, we used Michael Jackson's song "***Man In The Mirror***" as our anthem cry, our shout-out to the world that we mean business with our yearly theme as our goal. This month we go deeper and evaluate the outcome of our practical values of "Love your Neighbor as yourself", Love everyone even when we do not agree with what they do or say, Care for everyone, and Send our good words of Affirmative Thoughts and Vision/Visioning inward to expand outward and blanket our world and the universes, worlds within worlds ad infinitum.

We learn that God Mind that is animating force utilized by ALL. We unite in God Mind and know it as our mind; thus we are one with the Great One. We begin to Know the Powers therein and come to Understand the premise of, "as above so below" and we practice these Principles in all our affairs. ***Mastery of Spiritual Metaphysics***, our denomination, is a practical Spiritual belief system. In it we encircle, embrace, and utilize as much of all the great spiritual beliefs as we can. We open our eyes, our minds, our hearts, and our souls to develop ***A New Analysis Of A New World*** and we realize this reality as TRUTH in our lives as "***A World That Works For Everyone***".
