

WHY AM I HERE

I AM One who can make a difference in my world and in our world today. The I AM Presence is God Itself and there is nothing new under the Sun. As a matter of fact the Son of God is the Son of man and We are All One and the Same. Last weekend I watched the movie “I Am” for the first time in years. The movie follows the Comedy Film Director Tom Shadyac after a minor biking accident, which left him with a broken hand and a nasty concussion that caused Post-Concussion Syndrome. PCS sent his life spiraling downward into a state of depression to the contemplation of his own death. Tom makes it clear in the documentary movie that he did not reach suicidal consciousness but reached a point of **Why Am I Here** or I can leave in any moment and it will be alright with me. This description is written in my words not Tom’s because I have reached that point of existence several times in my life. And, it is only but for God’s Grace that I am still alive. To be honest, when I was somewhere around 12 or 13 years old, I actually did try to commit suicide. But, God and my mother was just not having it and to be honest, I Am so very grateful that they conspired to rig my life in the fashion in which I Am alive and writing this message to you this morning at this time ~ In The Year Of Our Lord 2016.

We live in a world which has as its foundation invisible energies that not only connect everything to everything else, it is also the very life and building material for all that exist. We can run but we cannot hide from the TRUTH that we “Live, move, and have our being in LIFE Itself. Sure, it is true that Darwin’s Law of Evolution speaks about the survival of the fittest. But, according to the documentary I AM, Darwin used the words “**Cooperation and Care**” tens of times more than the two or three times he made references to “**Survival**”. Science is said to be “just a story” yet civilization rests squarely on its findings as immutable truths. While, time reveals all and is continually revealing that religious and spiritual Truths are more and more, in today’s realizations, being proven true. We are also learning that who I Am matters not only to me, in my world, but also to the Universe in which we all live.

Our theme for the month of April is **The Nightmare: A World On The Brink** anyone alive, who owns a television set, a computer, , a tablet, an android phone or an ipad, or iphone and use either of them in the smallest of capacities has his or her idea of what this theme can mean in their personal lives or in the larger community of the world around us all. Tom Shadyac created the documentary I AM using two thesis questions: 1) What’s wrong with our world? 2) What can we do about it? Through a wondrous hour and a half exploration he concludes the answers to these two questions are **I AM and LOVE**. And, by learning simple Truths like every breath we breathe, we breathe in Argon elements of the past and of distances far and wide. Amid the Divine Network of Energies our heart rhythms enfold us and links us together lifting us higher in Mind.

This is good news... This is **The Good News** for all humankind. No matter what things look like on the outward expressions; the Truth is that life is ever evolving onward to the highest position or Truth that it is Already, in fact. Innate within all life is the code “Love one another”, “Care for one another” for this is the place; this is the level that the pure waters of God exist from everlasting to everlasting. So, we take the opportunity this month to relax and be okay with looking at the world of illusions and concerns, where wars, anger, hatred, jealousy, and illness reside, real or imagined. We give ourselves this opportunity, this month, so that as we move onward and upward into this year. We can let go and reach higher and deeper within to the Truth of our Being and rest assured that the Love that we have within ourselves is for all that is around us. It is Real. It is Strong. It is Health. It is Wholeness. It is God. It is Us. It is Our True Self as seen through our Christ Consciousness! We seek and we realize that We Are the Good that We Seek.

Praise Be,

Rev. Cassandra
